

ES dock bumpers

The extra strong Loading Systems ES dock bumpers are durable armoured bumpers for demanding applications.

Features

- Suitable for intensive use of dock
- Available in two sizes or in combined set
- Wear-resistant
- Deliverable in galvanised finish

Materials

The ES dock bumper is built from a 8 mm steel base assembly, a standard rubber bumper block and a 10 mm bended armour plate. These dock bumpers are suitable for dock levellers with a hinged or telescopic lip.

The ES dock bumper is pre-assembled and can be ordered in galvanised finish.

Dock bumper ES 500

The ES 500 dock bumper is a standard sized armoured dock bumper, based on a 500 x 250 x 100 mm rubber bumper block.

| Article number | Dimensions WxHxD (mm) | Weight per pair (kg) | Finish |
|----------------|-----------------------|----------------------|------------|
| 912-520G | 300x500x116 | 87 | Galvanised |

Dock bumper ES 850

The ES 850 dock bumper is an extra large armoured dock bumper, mounted 350 mm above the platform. This dock bumper is developed especially for applications with high trailers.

| Article number | Dimensions WxHxD (mm) | Weight per pair (kg) | Finish |
|-----------------|-----------------------|----------------------|------------|
| 912-820G | 300x900x116 | 160 | Galvanised |

Dock bumper set ES 500 + ES 850

This set consists of one ES 500 and one ES 850 dock bumper.

This combination of dock bumpers makes the dock suitable for high trailers while the entrance of the truck is still completely free on one side.

| Article number | Dimensions WxHxD (mm) | Weight per pair (kg) | Finish |
|-----------------|----------------------------|----------------------|------------|
| 912-920G | 300x500x116 300x900x116 | 124 | Galvanised |
